Art Unit: 1714

Claims 1-3 and 6-17 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicants use of the term autoxidizable is not defined in the specification in such a manner as to enable one skilled in the art to practice the invention without undue experimentation.

Claims 4, 5, 18 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
